

## MELJAC Brushed Nickel finish on brass looks wonderful in the kitchen

MELJAC, the leader in high-end electrical equipment, is highlighting the Nickel Brossé (Brushed Nickel) finish that works in perfect harmony with kitchen equipment.

For a perfect decorative finish, you need switches and sockets that match the style of your kitchen.

This brushed stainless-steel look is created on a robust, high-quality material: brass, using a skilled hand-finishing process.

The treatment of surfaces by hand is still one of this French-made brand's specialities which is renowned for the quality of its products.

### ■ Harmonious decoration and design right down to the last detail

The MELJAC Nickel Brossé finish is well known for its ability to enhance sophisticated interiors, especially in areas with a variety of metallic items (taps, frames, handles, utensil racks, household appliances, etc.). MELJAC brings a truly aesthetic dimension to sockets and switches. They become an essential element in beautiful design, above and beyond their functional aspect.

On request, MELJAC equipment can be supplied with class IP21 protection (relating to protection from vertically dripping water).

MELJAC offers 25 other colours to choose from, all made using the traditional methods which guarantee quality results.
