

## MELJAC is making thermostats beautiful

MELJAC, a leader in high-end switches, is designing elegant thermostats and climate controls to bring electric appliances into aesthetic harmony for a refined interior.

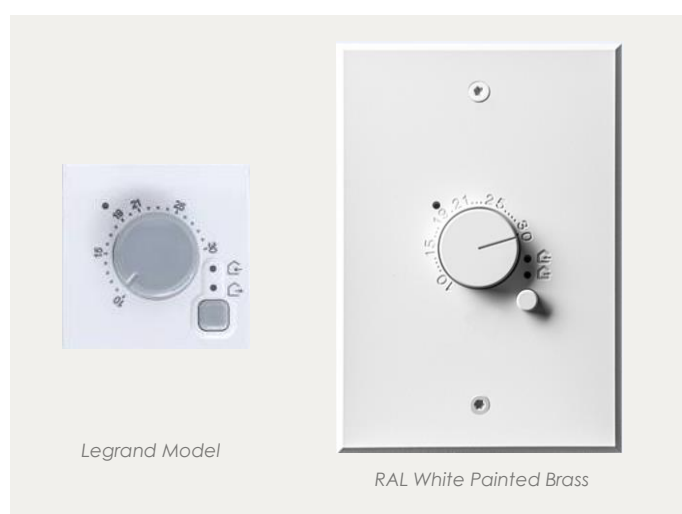

Clad in custom brass, hand-polished with 26 finishes to choose from, these thermostats fit in neatly with sleek interior design.

■ Exit plastic, replaced with high-quality materials

MELJAC creates custom covers for thermostats which already exist on the market (Legrand, Feller, Devireg...). For this, simply provide the MELJAC design office with the original appliance, and we will create a newly designed covering for the system, by replacing the plastic elements.

Our brand's French know-how guarantees that our creations have true finesse and exceptional quality.

■ Before/After – A Sublime Enhancement

### About MELJAC

Created in 1995 by André Bousquet, the company designs high-quality electrical equipment using the finest materials. Its innovation and working methods are at the heart of its development, guaranteeing an optimum quality. The brand is sold in 60 countries, and has 40 authorized dealers in France and 23 abroad.

With about 10 collections, MELJAC offers architects, decorators, electricians and private individuals a large range of options: switches, sockets, table lamps, reading lights, thermostats, home automation systems etc. The brand is also renowned for its made-to-measure creations.
