

MELJAC goes transparent with plexiglass

MELJAC, leader in high-end switches, provides a solution that makes electrical equipment invisible. In order to meet the demand for tailor-made products combined with a desire for discretion, the brand applies its know-how to offer this special requirement.

Renowned for adapting its products to the expectations of its customers, MELJAC allows the beauty of a wall covering to take pride of place while adding refined personalisation.

Switches and wallpaper make a lovely combination

MELJAC offers an alternative solution to glass, meeting for example the needs of many hotels. Thanks to the plexiglass and backplate system, the switches and sockets blend in with the décor, with no visual interruption.

All toggles in the MELJAC collections are adaptable to this 3 mm thick material.

Customisable models: engravings of words, silkscreen, symbols, pictograms, etc.

All formats possible
