### ■ Meljac know-how at the service of the Hospitality

In partnership with the Wilmotte architectural firm, the brand has designed a bespoke model of its control "Z panel" for the Lutetia. As requested by the hotel, the "Z" holds a Crestron control screen, a home automation system that manages many devices in the room (lighting, curtains, access indicator for housekeeping, etc.). It brings an additional touch of elegance and originality by fitting seamlessly into the decor of the rooms.

This luxury creation could also hold plugs and switches.
