MELJAC presents its Cannelée collection

Meljac, the leader in luxury switches, is proud to present its range of solid brass electrical fittings: the Cannelée collection, designed by Jean-Michel Wilmotte.

This product range, featuring a characteristic wavy plate and bearing the prestigious “Origine France Garantie” label, perfectly illustrates the brand’s high-quality French craftsmanship.

■ Superb pieces blending aesthetic quality and functionality

The Cannelée collection, made in France, has an innovative surface texture, crafted directly from 5.5mm-thick solid brass to create a series of regular waves. The patinas (15 finishes to choose from), applied by hand, generate unique reflections according to the ambient light.

The Cannelée collection is fully customisable with engravings and combinations of different mechanisms (switches, sockets, USB or RJ45 ports, reading lamps, “Z” control panels, etc.). It showcases the use of state-of-the-art digital tools and the irreplaceable human touch.

- . Several toggle designs
- . RAL paint finishes possible
- . Fits with standard French back boxes and Swiss back boxes
