

MELJAC chooses premium materials

MELJAC, the leading manufacturer of luxury electrical fittings, is proud to present its quality materials, which include solid brass, tempered glass and porcelain. These materials contribute to the long life and exquisite appearance of its products.

MELJAC's creations, made in France in keeping with the finest traditions, draw on skilled craftsmanship allied with advanced technology.

Brushed brass

Materials under the microscope

Natural brass sheets

The quality of MELJAC's products is the result of meticulously chosen materials which are treated with a series of painstaking, precise manual procedures to bring out their natural beauty.

The brand particularly uses solid brass, a metal known for its many properties including high resistance owing to its unique composition and density. The surface treatment used (bead blasting, polishing, sandblasting, antiquing, etc.) determines the end colour and appearance.

The pieces in the tempered glass collections offer a degree of transparency that creates natural reflections and showcases the subtle beauty of RAL paint shades.

MELJAC also has a porcelain range, with products available in a glazed (shiny) or unglazed (matte) finish. The sophisticated elegance of this material creates a uniquely delicate appearance that is highly sought after by interior designers.

- Classique models in brass and porcelain: 3mm thick
- Classique models in glass: 4mm thick
- Volumes models in solid brass: varies according to product
- Casings for home automation systems, thermostats, alarms, etc. in brass

Polished brass

MELJAC is committed to bringing out the exquisite properties of each of these materials by constantly working to find innovative new ways of turning functional objects into uniquely attractive and fully customisable pieces. Some products can be manufactured on request using other materials such as bronze or even semi-precious stones.

CREATED AND PRODUCED IN FRANCE

About Meljac

Created in 1995 by André Bousquet, the company (90 employees) designs high-quality electrical equipment using the finest materials.

With about 15 collections, MELJAC offers architects, decorators, electricians and private individuals a large range of options: switches, sockets, reading lights, casings for thermostats and home automation controls, etc. The brand is renowned for its bespoke creations. All products are 'Origine France Garantie' labeled. MELJAC is the first company in its business sector to obtain the EPV label (Living Heritage Company).

Its innovation and working methods are at the heart of its development, guaranteeing an optimum quality. Today the brand is available all over the world, with approximately 60 authorized dealers to help serve each their respective markets. The company has one subsidiary in the United States of America.

Some references: the Palace of Versailles, the Louvre Museum, Cartier and Chanel boutiques, the Hotels Four Seasons, Mandarin Oriental, Meurice, La Réserve in Paris, the Royal Mansour in Marrakech, the Intercontinental in Geneva, the Danieli Hotel in Venice...
