

MELJAC unveils a new finish for its brass products: Antique Brass NA

MELJAC, the global leader in luxury electrical hardware, is proud to present an innovative new finish: **Antique Brass NA**. The rubbed brass reveals alternating light and dark areas, creating a subtle, organically aged effect that will continue to patina over time.

Each piece is finished entirely by hand and showcases Meljac's unparalleled French craftsmanship.

Antique Brass NA was developed for Meljac North America to meet the strong demand for living finishes in the US market. Antique Brass NA has now been added to the MELJAC standard colour chart and is available worldwide.

A finish for all styles

Antique Brass NA showcases the natural beauty of solid brass, the material carefully chosen and used for all MELJAC products.

The finish blends perfectly with existing brass hardware and fittings found in traditional interiors characterised by old-world charm. This finish is also increasingly used in ultra-modern settings to provide contrast such as in New York loft conversions.

Antique Brass NA elevates switches, outlets and control panels to from merely functional to integral to the interior design scheme.

- Sample plate available in the sample box of 30 standard finishes
- Available for the Classique, Ellipse, Damier and Solaris collections
- Customisable with engraved or screen-printed words, symbols, pictograms, etc.

CREATED AND PRODUCED IN FRANCE

About Meljac

Created in 1995 by André Bousquet, the company (90 employees) designs high-quality electrical equipment using the finest materials.

With about 15 collections, MELJAC offers architects, decorators, electricians and private individuals a large range of options: switches, sockets, reading lights, casings for thermostats and home automation controls, etc. The brand is renowned for its bespoke creations. All products are 'Origine France Garantie' labeled. MELJAC is the first company in its business sector to obtain the EPV label (Living Heritage Company).

Its innovation and working methods are at the heart of its development, guaranteeing an optimum quality. Today the brand is available all over the world, with approximately 60 authorized dealers to help serve each their respective markets. The company has one subsidiary in the United States of America.
