

## Meljac celebrates the authenticity of brass with the Antique Brass NA finish

Luxury switch manufacturer Meljac is proud to present Antique Brass NA, a solid brass finish with an appealing patina that provides character and contrast. This finish, obtained using a manual surface treatment process in Meljac's workshop on the outskirts of Paris, creates a striking effect with alternating light and dark areas that reveal the natural depth of the material.

Meljac is an accredited Living Heritage Company known for its expertise in brass surface treatment. Its colour chart features 29 finishes, offering solutions for even the most demanding interior design projects. All Meljac products bear the prestigious "Origine France Garantie" certification.

### A warm finish with authentic appeal

With its natural colour variations and soft, aged appearance, Antique Brass NA brings depth and personality to any interior. The finish works equally well in contemporary and more traditional settings, creating a subtle dialogue with materials such as dark wood, natural stone and marble.

The contrast between gentle matte areas and brighter highlights elevates the details of the fittings and enhances their decorative qualities. Each unique piece is testament to Meljac's skilled craftsmanship and expertise.
